

Waveguide Transition

My supplier manufactures a wide variety of waveguide transitions ranging from standard rectangular waveguide transitions in overlapping bands to custom transitions spanning multiple bands. Additional sizes, extended range, and custom design configurations are available on request..

Rectangular to Rectangular Transitions in Overlapping Bands

● Specifications

Model No*	Freq Range (GHz)	VSWR (Max)	Length (mm)	Port1 WG T ype		Port2 WG T ype		Flange	Material
				IEC	EIA	IEC	EIA		
ID-34WA...	0.35-0.49	1.10	1000	R3	WR2300	R4	WR2100	FDP/FDM	Al

*Indicates Model Number. See Ordering Information for complete part number.

● Ordering Information

Example Part No: **ID- 84100 WA 100 P M A**

ID CONNECTING

WG Type: R84 to R100

Product Type: WG Transition

Material: A=Aluminum C=Copper

Port 2 Flange Type: M=FBM100

Port 1 Flange Type: P=FBP100

WG Transition Length: L=100mm

- Flange type: Multiple types available
- Finish: Corrosion protection plus black/grey top coat.
